DIRECTOR'S MESSAGE

HON. SHREE. RUPESH L. DARADE
(DIRECTOR, JAGDAMBA EDUCATION SOCIETY)

We aspire to attain global standards by way of fast track growth by gradually adding as much as value as possible to our students through synergic balance of curricular and co-curricular activities in full steam by committed faculty supported by an enlightened and forward looking college management. We believe that 'quest for quality' is a never ending process. The more one attains quality parameters, the more widens the demand for the same. We always endeavor to meet the growing needs of higher technical and management educations by adopting new technologies, providing resources and by developing positive attitudes.

We always welcome and quickly respond to new suggestions and innovative ideas to upgrade the quality of education at our all Institutes. Whatever shortcoming we may have today, we are at work in unison to ensure an incredible value addition among our students during their four years of stay with us. At the same time, we are also confident to ensure that the alumni of our college will feel proud of their institution of choice in the days ahead of us. My best wishes to the students and the parents who have reposed faith in us

PRINCIPAL'S MESSAGE

PROF. JADHAV U.B.

PRINCIPAL, S. N. D. POLYTECHNIC, BABHULGAON

We at S.N.D. Polytechnic continuously strive to impart Quality Education along with high ethical and moral values which enable us, not only to mold our student as successful diploma engineers but also as disciplined citizens of our Nation. Also, we continuously upgrade and maintain world-class infrastructure keeping pace with the rapid technological developments. S.N.D. Polytechnic is one of the best polytechnics of the region, imparting quality education to its students, with special emphasis on personality development. Participation in competitions, industrial training & visits are regular features of college and are financially supported by the college.

Life at the campus is hectic with college theory and skill tests, semester examinations, practical submissions, co-curricular & extracurricular activities. The students are initially baffled but guidance from teachers gradually makes students confident and relaxed. The raw and unpolished students entering the college leave as confident and self-assured diploma holders. Of course, a lot of hard work goes behind this transition as they say a gem cannot be polished without friction, nor a man perfected without trials. We believe truly that quality education is a necessary precondition for a better world and pledge with efforts to ensure that our Polytechnic will meet all your children's needs in well-equipped, well-resourced and well-staffed campuses that are essential in the quality of the education they provide. We take pride in our commitment to offer programmers that draw on research and best practice as well as acting with the wealth of knowledge and experience of our competent faculty. Together, we aim to create a relevant, engaging and challenging educational experience for all our students.

PRINCIPAL'S MESSAGE

MR. SHAIKH S.F.
HEAD OF THE DEPARTMENT

Welcome to the Department of Computer Engineering. It is my pleasure to extend a warm welcome to all students, faculty, and visitors to our department. Our mission is to provide high-quality education that fosters technical knowledge, innovation, and skill development in the field of computer engineering.

In today's fast-paced digital world, our department ensures that students are equipped with the latest industry knowledge and practical experience. We offer a range of workshops, seminars, and expert sessions to keep our students at the forefront of emerging technologies. We also emphasize the importance of teamwork, problem-solving, and ethical practices in all our academic endeavors.

Our dedicated faculty and staff work tirelessly to create an environment that encourages learning, creativity, and personal growth. The department focuses on preparing students for real-world challenges, ensuring they are well-prepared for careers in the dynamic tech industry.

I am confident that our students will not only excel academically but also contribute positively to society. Let us continue to grow, learn, and innovate together.

ABOUT DEPARTMENT

A Computer professional who desires to create a niche in the IT sector cannot solely rely only on his coding instincts. He needs to have strong system operational skills to be proficient in Software design, modelling, testing, networking and troubleshooting as well. This calls for strong designing, computing and networking facilities with ideal configurations where a student can explore and learn. Our department is dedicated to improve and make the students skillful and perfect to run the organizations properly. The department has team of young and enthusiastic teachers with state-of-the-art laboratories. Professor Shaikh S F. is guiding the department as a head.

VISION :

To create and maintain learning environment to produce diploma computer technocrat who will serve the industry and society with their knowledge and skill.

MISSION :

M1 :To impart computer engineering knowledge to satisfy industry and society need.

M2 :To inculcate habit of computer engineer for life long learning to cope-up with changing technology.

M3: To empower computer engineers for social progress with ethical values.
